ORGANIZERS

WELCOME LETTER

VIETNAM WELDING SOCIETY

On behalf of the Vietnam Welding Society (VWS), I would like to extend our warmest welcome to distinguished delegates, organizations, associations, experts, and domestic and international enterprises on the occasion of your participation in the 17th International Exhibition on Metalworking & Welding Technology in Vietnam – METAL & WELD VIETNAM 2026, the Vietnam International Hardware and Manual Electric Tools Exhibition – HMET EXPO VIETNAM 2026, as well as the 44th Executive Council Meeting of the Asian Welding Federation (AWF), the Committee Meetings, and the 19th Asian Welding & Application Technology Forum. These events will be held from May 14 to 16, 2026, at the Friendship Cultural Palace, 91 Tran Hung Dao Street, Hanoi, Vietnam.

Vietnam's honor of hosting simultaneously large-scale specialized exhibitions together with a series of important events of the Asian Welding Federation not only reflects the confidence of the regional welding community in the Vietnam Welding Society, but also affirms the increasingly prominent position of Vietnam's mechanical engineering, welding, metal processing, hardware, and tools industries in the process of regional and global industrial integration and development.

METAL & WELD VIETNAM 2026 and HMET EXPO VIETNAM 2026 are prestigious specialized events that bring together advanced technologies, equipment, and solutions in the fields of welding and cutting, metal processing, molds and dies, hardware, hand tools, automation, and smart manufacturing. At the same time, they serve as an important platform to promote scientific and technological cooperation, technology transfer, human resource training, and trade connectivity among enterprises, research institutes, universities, and professional organizations in Asia and around the world.

Alongside the exhibition activities, the 44th AWF Executive Council Meeting, the Committee Meetings, and the 19th Asian Welding & Application Technology Forum provide an important opportunity for leaders and leading experts to exchange views on development orientations, standards, training, certification, and the strengthening of international cooperation in the field of welding and related technologies, thereby contributing to improving human resource quality and technological capacity in the context of the new industrial revolution.

The Vietnam Welding Society believes that, with the active and enthusiastic participation of all distinguished guests, this series of events will be successfully held and will bring significant academic, technological, and economic cooperation value to the welding, metal processing, hardware, and tools community of Vietnam as well as the Asia region.

Once again, on behalf of the Vietnam Welding Society, I warmly welcome you to Hanoi – the thousand-year-old capital of culture, and wish you good health, success, productive working days, and many valuable connections at METAL & WELD VIETNAM 2026, HMET EXPO VIETNAM 2026, and the AWF 2026 activities.

Sincerely,

VIETNAM WELDING SOCIETY
CHAIRMAN

ASSOC. PROF. DR. BUI VAN HANH
